

**ADF GROUP INC.
LANDS A MAJOR CONTRACT
IN NORTHEASTERN UNITED STATES
TOTALLING \$22.0 MILLION**

Terrebonne, May 13, 2009

ADF GROUP INC. ("ADF" or the "Corporation") (TSX: DRX) is pleased to announce that it has been awarded a major contract totalling \$22.0 million. The contract includes the supply of material (steel), the fabrication, and the delivery of the steel structure of a significant portion of an office tower to be built in the North Eastern United States. Delivery will start in the fall of 2009 and will extend to the second half of 2010. The engineering drawings relating to this contract will be provided by the client.

Mr. Jean Paschini, Chairman of the Board and Chief Executive Officer, declares, "All of our new equipment of the latest generation, acquired in 2007 and 2008, has been operational since January 2009. This equipment has allowed us to significantly increase our fabrication capacity and to further improve the accuracy and speed of execution. Given the main characteristics of this high-rise, we will optimize our recent strategic investments to carry out this project."

Mr. Paschini adds that the Corporation is currently reviewing its operating process to comply with the nuclear system requirements in effect in America, by the end of 2009. This will permit ADF to participate in the fabrication of steel structures for nuclear power plants, a highly specialized sector. In addition to the continuous development in its current markets and key sectors, this accreditation will open a new and expanding market for ADF. The Corporation specializes for over 25 years in very highly complex projects and those subject to fast-track schedules. The nuclear systems qualification will add a third specialized niche.

About ADF

ADF Group Inc. is a North American leader in the design, engineering, fabrication and selective installation in the non-residential construction industry of complex steel superstructures, as well as in architectural metal work. ADF is one of the few players in the industry capable of handling highly technically complex mega projects on fast-track schedules in the commercial, institutional, industrial and public sectors.

Forward-Looking Information

This press release contains forward-looking statements reflecting ADF objectives and expectations. These statements are identified by the use of verbs such as "expect" as well as by the use of future or conditional tenses. By their very nature, these types of statements involve risks and uncertainty. Consequently, reality may differ from ADF's expectations.

All amounts are expressed in Canadian dollars.
